FROM G-POSNER 6/15/94

Dear Dr. Aguilar -

My mother told me you were wonderful to her during her surgery earlier today (thanks) and it reminded me of how late I am in answering your May 2 letter. Sorry, but I've been traveling a lot on 2 magazine articles - not Kennedy related (and it should only get worse through the summer).

There must have been a misunderstanding about JAMA putting me in contact w/ Horne and Boswell. I actually talked to them months before the JAMA publication. I will not be releasing any notes on those conversations, or any other part of my research, until there is no litigation on the book. Currently, there are 2 lawsuits over an advertising campaign for the book. Let's see what happens when those are finished.

By the way, I did do all the interviews in my book. My wife, Trisha, often sat in on them, and she did one on her own of Harold Weisberg.

We are unlikely to ever agree on who killed JFK and why - but as long as we can debate the facts and ignore personal attacks, I'll be available for the discussion in the future - until then - Gerald
